DIRECTIONS & PARKING

There are many ways to reach EXPLORADO. We recommend travelling by public transport.

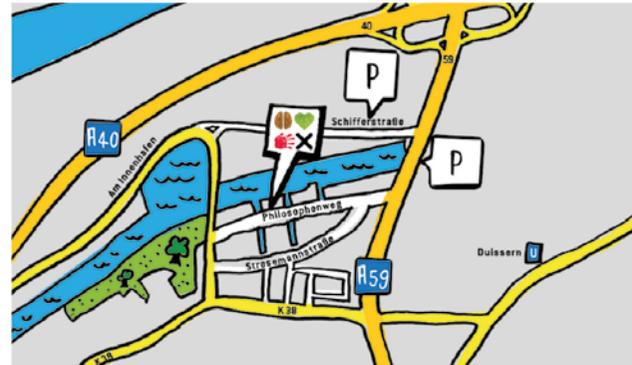

From Duisburg main station, take the bus 934 in the direction „Kaßlerfeld/Am Unkelstein“ to the stop „Hansegracht“. Then it is a 2 minute walk down the Philosophenweg.

A59 (from direction Wesel): Exit Duissern, turn right into Kardinal-Galen-Straße und then again right into Philosophenweg.

A59 (from direction Düsseldorf): Exit Duissern, turn left into Oranienstraße and again left into Kardinal-Galen-Straße. Finally turn right into Philosophenweg.

GERMANY'S LARGEST CHILDREN'S MUSEUM

HANDS-ON EXHIBITION

Germany's largest children's museum takes young visitors on an **exciting journey!**

In our hands-on exhibiton, children from ages 4 to 12 can take on different roles and learn a lot about **technology, nature and other topics**. They can play, study and do experiments true to our motto „**Learning by Playing**“ on three floors and at about 100 interactive exhibits.

If you need a break from exploring the museum, you can have lunch in our café or eat your own food in our break room. Furthermore we offer a family breakfast buffet on Sundays.

CHILDREN'S BIRTHDAY PARTIES

Celebrate your **birthday** at EXPLORADO and have a very **special day**. You can choose from many different themes and turn into a pirate, elf, scientist or detective. Then you do experiments in the laboratory or go on a treasure hunt. You can also be trained to be a magician, make your own movies and much more.

Birthday parties start at 120 € for 8 children including care, food and admission.

Information and booking: +49 (0)203 - 298 233 444
or www.explorado-duisburg.de

SPECIAL EXHIBITION

Until October 2018:

Explore the new interactive exhibition on the natural forces of the Earth. The title of the exhibition („The Strong Four“) is not just about the forces **earth, fire, water and air**, but also about **four comic heroes** named **Eddy, Branda, Windy and Splash**. The sympathetic four **represent a natural force** and accompany the visitors through the exhibition. The heroes provide necessary background knowledge and help to teach our young visitors **how natural forces affect our Earth** and what happens when they get out of control.
